WHAT IS PETIT CLOS?

Petit Clos, translated from French to mean ‘small enclosed vineyard’, captures the vibrancy of our estate. Petit Clos wines come from our younger vines, from a mixture of soil types.

VITICULTURE

In the French tradition, our entire vineyard is high density planted - this forces the vines to compete with one another, resulting in highly concentrated grapes and more mineral flavours in the wine. The younger Sauvignon vines are situated on our 3 different soils types.

WINEMAKING

The wine was fermented in stainless steel tanks to retain fruit purity and flavour; it was then aged on fine yeast lees for three months. Lees stirring over this time allows the wine to stabilise naturally, enabling us to fine the wine only once before a light, non-sterile filtration. This extended lees contact also helps the wine to gain roundness and texture.
